## **2022 Brunch for the Heart**

**Dear Community Leader:**

**Brave little Hearts for Michael and Friends** was founded October 2015, to support families of the 1-in-100 babies born with congenital heart disease each year. We help families connect with transitional support groups, educational resources, medical advocacy, social activities and related events in the community. Through these actions we build partnerships, elevate awareness, stimulate fundraising campaigns and increase family self-empowerment. We cannot do this endeavor alone. We anticipate your partnership as we strive to help other families who find themselves traveling on an uncertain journey with a child who has congenital heart disease.

Michael Richard Winchester is the charter member of *Brave little Hearts* who endured a year-long stay at Children's Hospital of Philadelphia in the Cardiac Intensive Care Unit. Michael was one of the 1-in-100 babies born with Congenital Heart Disease and every day of his life was a gift. The organization was birthed as a result of the family's experience of living at the hospital and doing all they could to get their baby home. Michael did make it home and was able to enjoy two wonderful years with his family. Unfortunately, Michael's heart could not handle the stress of his last open-heart surgery and he passed away just shy of his third birthday. The State of Pennsylvania honored Michael's life with a Resolution making March 6<sup>th</sup> Hypoplastic Left Heart Syndrome Day to bring awareness to his condition.

Brave little Hearts provides a lighthouse of resources to enhance and uplift family life as families care for their child through the challenge of living with congenital heart disease care at home. Brave little Hearts knows first-hand there is hope, as Michael's family learned what it takes on the long road home and committed themselves to sharing and supporting others who found themselves on this unfamiliar path.

Michael was a happy baby and brightened the day of everyone he touched. Please help us continue Michael's legacy of fighting against the odds and brightening the day of those children and families who need joy and hope. If you have any questions, we can be reached at [info@bravelittlehearts.org](mailto:info@bravelittlehearts.org)

***Brave little Hearts for Michael and Friends will host a Brunch for the Heart on Sunday, May 22, 2022. This community event enables Brave little Hearts to provide awareness, informational resources and assistance to families who have children born with congenital heart disease. As a premier community supporter, we are asking for a financial gift that will help open doors and support overwhelmed families who without warning are now navigating a difficult path.***

***Brave little Hearts for Michael and Friends is a 501(c)(3) tax exempt organization #82-1642730. We appreciate being able to count on your support.***
